NEWS RELEASE

3 May 2023

More than 25% of homes are fibre ready

Over 2,000 Guernsey households are already enjoying fast and reliable Sure Fibre Broadband.

Over 25% of Guernsey households are now fibre ready, with the Guernsey Fibre engineering team releasing 700 new properties a month. Torteval and St Peters are the next parishes to be connected to Guernsey Fibre's broadband and landline with 57 different postcodes and 229 properties in the area already able to sign up.

The latest areas that can upgrade to fibre are:

Chemin Le Roi; Les Buttes; Route de Pleinmont; Route Des Sages; Rue Collas Simon; Rue de la Couture; Rue De L'Aitte; Rue de Quanteraine; Rue des Brouards; Rue des Cambrees; Rue du Belle; Rue du Court Laurent; Ruette de L'Aitte; Hauteville; Charroterie Mills; Vazon; King's Mills; Cobo; Collings Road to La Vrangue; La Ramee to Capelles; L'Islet to L'Ancresse; Baubigny to Nocq Road.

Islanders can see if their property is fibre ready by using Sure's postcode checker at sure.com/fibre.

Mike Fawkner-Corbett, Head of Consumer at Sure, said: "This is a fantastic milestone to reach in Guernsey's fibre upgrade journey. We're excited to be sharing this technology with our customers, who are benefiting from the enhanced speeds, the ability to have multiple devices on a network, and no loss of speeds no matter where in the island they are.

"If your property is fibre ready, it's free to switch. Our Basic Fibre broadband is the same price the lowest priced non fibre package at £43 per month and offers almost twice the download speed (30Mbps average download speed versus 16Mbps).

Keep up to date with whether your property is fibre ready using our postcode checker on the Sure website."

Fibre connectivity is being rolled out across the island and will reach every property by the end of 2026.

Sure runs Fibre Friday drop-in events every Friday from 3-5pm in the High Street store, where customers can ask any questions about the island-wide fibre network roll out and a member of the sure team can help you switch for free.

LinkedIn: https://www.linkedin.com/company/surebusiness/?viewAsMember=true

Sure provides a broad range of telecommunications including broadband and mobile services to the islands of Guernsey, Jersey, Isle of Man, Falkland Islands, St Helena, Ascension and Diego Garcia.

In Guernsey Sure is rolling out fibre broadband network which will reach all of the island's 30,000 properties by 2026. This £37.5m investment (£25m of which comes from Sure, with up to £12.5m coming from the States of Guernsey) will futureproof the Bailiwick's connectivity and build the fastest network in the Channel Islands.

Sure Business specialises in providing managed business solutions including networking, data centre, cloud and cybersecurity services enabling our corporate customers to accelerate their own digital transformation, increase productivity and improve customer experience.

Sure's purpose is connecting our island communities for a better future, based on the values of one team, striving for customer satisfaction, reliability, having a passion for technology and learning, and being community and sustainability focused.

Since 2013 Sure has been a member of the Batelco, a leading telecommunications provider to 12 markets spanning the Middle East & Northern Africa, Europe and the South Atlantic and Indian Ocean.
