

EasySMS2 Service Specific Terms and Conditions

Sure EasySMS2 Product Description

The EasySMS2 service (the **“Service”**) enables customers to have desktop SMS functionality not dissimilar to desktop email. It provides a simple text messaging service that is a very personal and unobtrusive method of passing simple messages between PCs and mobiles. Similar to e-mail, you type a message, enter the destination (a mobile number), then press ‘Send’. The message is sent to the destination handset/s.

You will need to have a PC running Windows98, NT or XP that has access to the Internet, ideally a constant connection. We will provide all the necessary executable files and installation instructions. However it will be your responsibility to install EasySMS2 and set up the Internet connection.

The EasySMS2 service is billed on a monthly basis for the number of SMS messages sent and there is a minimum charge per month.

These Sure Service Specific Terms and Conditions should be read in conjunction with the Sure General Terms and Conditions. Where there is conflict these Service Specific Terms and Conditions supersede the General Terms and Conditions.
